JAYLORD VHAN FABOR

SOFTWARE ENGINEER | AI ENGINEERING & AUTOMATION

Iloilo City, Philippines | +63 919 848 4665 | faborjaylordvhan@gmail.com
Portfolio: jjayfabor.com | GitHub: github.com/jjayfabor | Open to remote roles; willing to relocate

PROFESSIONAL SUMMARY

Software Engineer and AI Engineer who builds AI agents, LLM-powered tools and workflow automation on reliable backends. Hands-on with the Claude Agent SDK, MCP, Vertex AI and RAG, n8n and AI voice agents, plus Laravel, Python, TypeScript and PostgreSQL. Ships AI services to production and wires AI into CRM, booking and internal workflows.

TECHNICAL SKILLS

AI & Agents: Claude Agent SDK, MCP servers, Vertex AI, RAG, LLM integrations, AI agents
Automation & Integrations: n8n, VAPI AI, ElevenLabs, Twilio, HubSpot CRM, Stripe, Google Drive, SFTP
Languages: Python, PHP, JavaScript, TypeScript, Dart
Backend & APIs: FastAPI, Laravel, Livewire, REST APIs, SQLAlchemy
Frontend & Mobile: React, Next.js, Flutter, Vite, Tailwind CSS
Databases: PostgreSQL, MySQL, SQLite, Supabase
Cloud & Tools: Google Cloud Run, Cloudflare Workers & R2, Docker, Render, Vercel, Linux, Git

PROFESSIONAL EXPERIENCE

Freelance Software Developer Jun 2025 - Present
Philippines
- Develop a REST API used by an ElevenLabs AI voice agent via Twilio for authentication, OTP verification and appointment booking during live calls.
- Build a cross-platform Flutter application for booking and AI-assisted scheduling.
- Designed API architecture and relational data models for users, providers, availability and bookings.
- Integrated Stripe payments and wallet functionality into the application.

Junior Software Developer Oct 2025 - Jul 2026
Callbox Inc. | Iloilo City, Philippines
- Built and deployed an AI-powered Google Chat bot on Google Cloud Run using Vertex AI and retrieval-augmented generation (RAG) over historical conversations.
- Implemented VAPI AI voice agents for webinar invitations and reminders, supporting 300+ outbound calls per campaign.
- Built n8n workflows for role-based document provisioning across employee lifecycle events, integrating Google Drive, SFTP and email.
- Developed HubSpot CRM workflows and JavaScript/Python custom-coded actions, integrating the CRM with the company's pipeline database through APIs.

Software Development Intern Feb 2025 - May 2025
Callbox Inc. | Iloilo City, Philippines
- Supported development of Laravel-based applications using MySQL, including performance optimization, debugging and frontend/backend integration.

SELECTED PROJECTS

Delphi Open source | AI agent
Python, Claude Agent SDK, MCP, SQLite, Next.js, TypeScript, Telegram, Discord
- Built a self-hosted personal AI agent on the Claude Agent SDK, reachable over Telegram and Discord, with persistent memory, teachable skills, MCP connectors and scheduled tasks.

OpenRole Observatory Live demo | Backend system
Python, FastAPI, PostgreSQL, SQLAlchemy, Next.js, TypeScript, Cloudflare R2
- Built an idempotent job-sync service with raw-source evidence, immutable listing history and change tracking; synchronized 1,281 listings from 25 Greenhouse boards.
- Delivered public job search and an internal operations dashboard; deployed with Neon, Render and Vercel.

SecondTrip Live private beta | Solo build
Next.js, TypeScript, FastAPI, Python, PostgreSQL, SQLAlchemy, Cloudflare R2
- Built a multi-tenant callback review tool with validated CSV imports, explainable deterministic scoring and a manager review queue with append-only decision history.
- Implemented PostgreSQL row-level security, a durable job queue, secure cookie sessions and private file storage.

EDUCATION

Bachelor of Science in Computer Science 2021 - 2025
Central Philippine University | Iloilo City, Philippines

Vocational Degree in Computer Technology 2019 - 2021
Professional Electronics Institute Inc. | Iloilo City, Philippines

Language: English - B2 (CEFR)
